Date Submitted:	1991-10-22
Date Considered:	1991-10-22
Committee:	Academic Affairs
Action:	Killed in Committee
Result:	
Remarks:	FAILED
Whereas:	IPE (Individualized Plan for Evaluation) Nursing Students are practicing Registered Nurses in a special undergraduate program to obtain a Bachelors Degree in Nursing; and
Whereas:	The Generic Program Nursing student is not a Registered Nurse neither have they this extensive Nursing experience; and
Whereas:	It is the practice of this university to combine the Grade Point Averages of these two very different groups to calculate the standards by which honor status for graduation is determined; and
Whereas:	The IPE Grade Point Averages artificially inflate the GPAs of the entire undergraduate program; and
Whereas:	A comparison of the requirements for graduating with Honors among the six schools and colleges of The University of Texas at Arlington reveal a disparity in the selecting criteria.
Be It Therefore Resolved That:	The scores of these two groups should not be combined when determining the criteria for graduating with Honors from the School of Nursing.
